OUTLET SEWER BOBS UP AGAIN

Another Section at Ninth South Near Third West Turns Up Missing.

ENGINEER WAS IN THE DARK

When Council Wanted Information He Was Unable to Furnish it and Is Given Additional Time.

After making further investigation into the construction of the outlet sewer, another section was found missing on Ninth South between Third and Fourth West streets. Councilman L. E. Hall introduced a resolution last night in council meeting authorizing the city engineer to repair the sewer and put it in commission. George O. Chaney, city engineer, says that the repairs will cost about \$4,000, but the administration has no money with which to make the repairs.

Chaney was called before the council to enlighten some of the "American" members of the council. This he was unable to do, and the resolution was referred to the city engineer to secure more information and present it to the council. In the meantime the sewers which the "American" party promised before election are in a worse way than ever and no nearer completion.

A. Campbell, president of the Campbell Building company, sent a letter to the council asking if that body intended to take an action on his bill of \$8,000 on the outlet sewer contract. Councilman Wood attempted to have it referred to a special arbitration board like the Moran bill, but he was not successful. It went to the finance committee for consideration.

HALL HOLDS PAT'S BILL

Two estimates in favor of P. J. Moran for laying extension 34 on east First South street, were held up by Councilman Hall, who insists that Moran violated his contract and that the city has something coming under the contract. The contract was made in the completion of the contract, according to the figures in the city engineer's office. At \$25 a day, this would mean \$1,975 which Moran owes the city. The estimate was sent to the city attorney to see if the board of public works could ignore the forfeiture clause. The estimate of this work amounted to \$6,305, the final estimate.

The Newhouse Realty company sent a proposition to the council to install a system of lights in Main, State, Cass and Exchange places. Councilman Hall said that it would be a bad precedent to grant the permission without investigating it and deciding upon some uniform system of street lighting. The matter went over for another discussion.

The University club sent a protest to the city council asking that the fence on the south side of Temple street in front of the club house, which is being enlarged, be removed. There is no sidewalk constructed around the fence, and it is declared to be a public nuisance. The city engineer has a resolution requesting the building inspector to have the fence removed.

Chief Glone of the fire department submitted the following appointments, which were confirmed, to fill vacancies: Joseph T. Bowen, lieutenant; Peter J. Gallagher and A. Fleckenstein, engineers; G. G. Falkner, S. J. Fowler, H. E. Jones, J. R. Rafferty, E. D. Anthony, Charles Martin and Jack Grimm.

SOUND THINKERS ON ROLLER SKATING.—Bishop McTear, in a letter to the Christian advocate writes: "Allow me to commend to you and your readers' roller skating. It can and should substitute dancing as an exercise and amusement for the young people of both sexes. It furnishes indoor, lively and graceful exercise, and leaves no excuse for dancing. I wish there were a roller skating rink in every village." Salzman in his valuable work on "Exercise" says: "It is an exercise superior to anything that can be classified under the head of 'beneficial exercise.' It gives pleasure in the mind of the performer that I should recommend it as a most efficacious remedy for many ills."

Campe, writing on the same subject says: "It is necessary that we relax our minds at various intervals and take recreation of some kind. I know of no more pleasant or beneficial exercise than the modern roller skating, and every boy or girl, man or woman ought to learn it."

PRIZE FOR BEST CREST.—Commercial Club Wants Utah Designer To Furnish Design.

The Commercial club, through its furnishings committee has decided to offer a \$25 prize for the best design for a crest to be used in the decorations of the new club house. The competition is open to all and will close on Dec. 20. The only condition is that the letters "C. C." be incorporated in the design and that it be of such a character as to make it possible for use in fabrics and on china. The designs must be submitted under pen names, and any assumed title so that the real identity of the designer shall not be known until after a decision has been reached.

The various contractors who are working on the new club house have included crest designs in their specifications but on the suggestion of Joseph E. Caine, secretary of the club, it was thought best to have a crest which is the work of some Utah designer. The design will be generously used throughout the building, not only in the furnishings but also in wall decorations of permanent character.

LOOKING INTO SITUATION.—Fred Chambers Trying to Find Out if Game Law Is Violated.

Concerning the story that the local market is overstocked with wild ducks, and that the birds are being killed contrary to law, Fred W. Chambers, state fish and game commissioner, said this morning:

"While I do not believe the story is entirely true, I am taking steps to learn the true condition of affairs. In Boulder county, for instance, have 17 deputies. I am sending them letters, as to others, requesting a careful investigation and report. I am also writing to the presidents of the various duck clubs with a view to getting their statements and shall know in a few days just what the conditions are."

One reason advanced as to why there have been so many ducks on the market is that the dealers have held them at prohibitive prices, and the public declined to pay such a price.

Many file applications. The campaign of the Commercial club to increase its membership to 1,000 before the first of the year is bearing fruit, as an average of ten applications a day have been received since the inception of the movement. Secretary Caine says that the prospect of a rise in the initiation fee from \$50 to \$100 and also a possible limitation of the membership has brought many business men to realize the importance of becoming members of the club before it is too late.

BREAKING ALL RECORDS.—The money order division of the Salt Lake postoffice continues to break all records. The records for orders for foreign transmission is averaging over \$3,000 daily, principally in small amounts. These go to every country of Europe with a small number to present week and Australia. The receipts run from one-fourth to one-third more than those of the same days a year ago.
